

Introducing The Vido Series By Artisan Elevators

Simplified design and installation
for homebuilders, Custom Luxury
for the Homeowner

Competitive Edge: Reduced Time-to-Installation

The VIDO series is our strategic pivot to optimize your sales cycle, ensuring projects move faster from planning to final installation.

- ✓ **Made-to-Stock Efficiency:** Key structural and mechanical components for the VIDO are manufactured in optimized batches and held in inventory. This bypasses typical long lead times on core fabrication.
- ✓ **Competitively Priced:** Due to production standardization and optimized supply chains, the VIDO offers a superior feature set at an aggressive price point.

VIDO Specifications & Advantage

- Cable-driven System (Machine Room-Less)
- Available as 2 or 3 stop
- Standard Capacity: 500 lbs (226 kg)
- Standard Speed: 30 FPM
- Available in 40 FPM where permissible to local code and run-by requirements

Available Footprint

- 36 in x 36 in (Compact Residential)
- 36 in x 48 in (Standard Residential)
- All VIDO components adhere strictly to ASME A17.1 safety code.

Uncompromising Quality & Features

Aesthetics & Finishes

- The VIDO comes available in black or white powder coated finishes
- All Acrylic paneling
- Brushed or polished stainless-steel fixtures.
- Integrated LED recessed ceiling lighting.

Benefits Homeowners

- Improve accessibility for your family and guests.
- Increase your property value with luxury appeal and market demand of aging population.
- Optimize Floor space with efficient design.
- Increase your convenience and comfort at home.

Benefits to Installer

- Easy connection to standard **110V power source**.
- ONLY 96" ceiling height.
- 92" possible where permissible by local code and/or with variance.
- Size allows delivery to final position by fitting through a standard door, entryway or hallway.
- 10-year Warranty on mechanical parts.
- Pre-wired, labeled control box (Technician support ready).
- Standardized rail sections for quick alignment.

Benefit to Partnering Elevator Dealers

- SPEED **Ease of Installation: ** Standardized design reduces installation time from weeks to days.
- **Standardized Components** make assembly intuitive and predictable.
- Pre-wired, labeled control box (Technician support ready).
- Standardized shipping reduces risk of re-class fees and delays in transit.

Safety & Compliance

- Automatic emergency battery lowering.
- Emergency in-car phone system standard.
- Code-compliant door lock monitoring.

For the 36 x 36 Vido the interior dims are 25.75" x 26.71" | The 36 x 48 will be 25.75" x 38.71"
